Sample Advisement Report

Research PG Students (MPhil)

Version: 1.00

Created in November 2012

Maintained by: SIS Helpdesk, ARO

File: SIS website (https://registry.hkust.edu.hk/sis)

Abstract

This is a sample Advisement report of a student in a Research Postgraduate program (in this example, MPhil in Chemistry). Should students have any query about their own Advisement Report, please contact their academic advisors or School coordinators. You may also send your questions to SIS Helpdesk at sishelp@ust.hk. The document is organized by the Requirement Groups as follow:

Contents

Change Log

Date	Version	Author	Changes
7th Nov. 2012	1.00	Tony C. Lau	• The document was initially launched

Courses taken in addition to the program requirements

Usually, there won't be any courses in this requirement group before the later study terms. Courses listed here are not used to fulfill any requirements.

▽ **Courses taken in addition to the program requirements**

Satisfied: Courses below CAN be used to fulfill program requirements unless otherwise specified. Failed courses (if any) are not displayed in the Report and are available in the "Course History" section at the Student Center.

Curriculum for MPhil in Chemistry

Please note that the screens are captured from different testing student records in order to illustrate more variety of scenarios; and hence the overall number of credits (or units) may not be consistent with the total of the details.

▼ Curriculum for MPhil in Chemistry (2011-12)

Not Satisfied:

The minimum GGA required for the program is 2.850 and this will be verified upon graduation check near the last term of study.

Program Requirements I

The system generally considers the requirement is "satisfied" when the respective course(s) (in this case CHEM6990) is enrolled. Student need to complete all the respective course (or research) requirements satisfactorily in order to fulfill the corresponding program requirement(s).

Program Requirements I

Satisfied:

▼ Research

Satisfied: Students who opt for the Nano Science and Technology / Molecular Medicine concentration are required to conduct research in the area of nano area / molecular medicine respectively.

- Courses: 1 required, 1 taken, 0 needed

The following courses may be used to satisfy this requirement:

Course	Description	Units	When	Grade	Status
CHEM6990	MPhil Thesis Research	0.00	2012-13 Fall		◆

View All   First ◀ 1 of 1 ▶ Last

The number of courses required indicates 99 is only a maximum number in the computer system. Full time students have to register Postgraduate Seminar in all but one semester (Fall / Spring term) during the study. This will only be verified upon graduation check near the last term of study.

Postgraduate Seminar

Not Satisfied: Registration in all but one semester of full-time enrollment. This will only be verified upon graduation check near the last term of study.

- Courses: 99 required, 3 taken, 96 needed

The following courses may be used to satisfy this requirement:

Course	Description	Units	When	Grade	Status
View Course List	MPhil(CHEM) Seminar				
CHEM6000A	Chemistry Seminar	1.00	2011-12 Fall	P	✅
CHEM6000B	Chemistry Seminar	1.00	2011-12 Spring	P	✅
CHEM6000C	Chemistry Seminar	1.00	2012-13 Fall		🔶

View All   First ◄ 1-4 of 4 ► Last

Other Requirement

Not Satisfied: Present in 1 seminar related to the thesis topics during the program. This will be verified by the major department or program office upon graduation check near the last term of study.

Since the program requirements may be changed over the time. The system will show the program requirements applicable to the respective students mainly according to their intakes. Following is an example; students enrolled to the program before 2012 Fall term will not see the following Language Requirement.

Program Requirements II – Approved Coursework

The student is required to take 12 credits (or units) of coursework and 3 credits (or units) have been enrolled. The student needs to take other 9 credits (or units) to fulfill the requirement.

Surplus Courses Taken (Excluded from GGA)

Normally, no course will be placed in this requirement group as requests to exclude courses will only be made near graduation. Students should refer to the Academic Regulations for further details. This is placed after the first major of each degree.

▼ **Surplus Courses Taken (Excluded from GGA)**

Satisfied: Surplus courses that cannot be used to fulfill the program requirements and are not included in the calculation of GGA.
